

IronMag Labs, LLC

1860 Whitney Mesa Dr #120

Henderson NV 89014

10-30-2017

To whom this may concern:

In response to the FDA warning letter we received on October 23 in regards to our product **Super DMZ 4.0**, that was a(b) (4) product (b) (4) bottles in September 2015 over two years ago. We never made this product again or any other products with Ostarine after 2015. There are no supplement retailers or distributors that still have any of this product left.

As far as using synthetic steroids in our products we do not use any steroids or anything illegal/banned by the FDA. We only use **DHEA** (dehydroepiandrosterone) derivatives in our supplements which are legal and comply with all DSHEA regulations.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert DiMaggio'.

Robert DiMaggio
